LG Handsets – The art of successful call handling

LG DECT Handset

Fast and efficient call handling lies at the heart of successful business communications and the LG handset range gives you the speed, efficiency and features you need in a compact, and stylish package.

LG Handsets, more than a telephone...

...an advanced communication tool!

LG LKD Digital Handsets

LG LKD 30 Button Large Display Handset

LG LKD 2 Button Handset

LG LKD Digital Handsets

LG LKD 30 Button Executive Handset

LG LKD 8 Button Handset

"LG Electronics is ranked 6th in the global mobile handset market."

SLT - Single Line (Analogue) Telephony...

LG LKA-100 SLT Handset

Standard analogue telephones offer a simple and cost effective solution for any working environment.

SLT phones can be used on an LG phone system alongside digital handsets, ideal for those who do not need the benefits and features of the digital phone.

...the simple and cost effective solution

"LG Electronics operates in 120 countries and owns 37 manufacturing sites."

LG DECT Handset

DECT - All the features of a desk phone...

LG LKD 30 Button Executive Handset

LG LKD 8 Button Handset

...but with the freedom to roam.

DECT (Digitally Enhanced Cordless Telephony) is a modular system that integrates into the LDK & GDK Families. The huge number of sophisticated system features offered by the LDK or GDK also applies to the DECT. LG DECT provides a higher level of service for companies who

care about their customers. Previously only available to larger systems, LG DECT is now available from 1-192 handsets.

Staff are free to leave their desks yet remain contactable at all times - the perfect

solution for mobile station users, warehouses, services, healthcare, factories, airports, schools, leisure centres etc. Being tied to a desk is a thing of the past.
